

Web Developer with over 8 years of experience – most recently responsible for digital products in an international Medtech environment. I conceptualise, architect and drive projects from idea to launch: from global multi-language platforms to regulatory-compliant systems and cutting-edge 3D web technologies. Next step: taking on full responsibility as Tech Lead.

WORK EXPERIENCE & PROJECTS

Web Developer – Global Projects

Jan 2022 – Present

Medartis AG

Global Website Launch – Multi-Tree & Multi-Language

Conception & full development of a global TYPO3 v13 web presence with multi-tree architecture for international markets. Responsible for system architecture, page structure and deployment.

[TYPO3 v13](#) [Multi-Tree](#) [i18n](#) [Bootstrap](#) [MySQL](#) [Git](#)

Regulatory eIFU Extension (TYPO3)

Custom TYPO3 extension for EU MDR-compliant delivery of electronic Instructions for Use (eIFU) including versioning, language management and audit trail.

[TYPO3 Extension](#) [PHP](#) [EU MDR / eIFU](#) [MySQL](#)

Medartis ONE App – Conception & Project Lead

Central content platform (iOS & Android): all company documents, videos and regulatory content with eIFU offline download, direct API connection to the corporate website and full user registration. Responsible for architecture, features and stakeholder coordination.

[Project Lead](#) [iOS & Android](#) [REST API](#) [eIFU](#) [Offline-First](#) [Scrum](#)

Medartis Bones App – End-to-End Development

Sole responsibility for conception, UX/UI design and development of a cross-platform hybrid app (iOS & Android) for sales teams and surgeons. Real-time 3D rendering of implants, offline mode, personalised favourites.
